

## *Bedroom #2 Suite*

THE VERY THING, LTD. | Burlington

**L**eigh S. Jones joined the firm, The Very Thing, Ltd. in 1980 as the principal designer after graduating from East Carolina University with a major in Interior Design. Leigh specializes in comfortable luxury living helping clients to think creatively and work outside their comfort zone to achieve great design.

She titled this bedroom design "A Study in Contrasts". The room awash with light reflects a relaxed atmosphere, clean and classic with contemporary elements.

The heavy textured handloom linen contrasts with that of the embroidered silk and the fine bed linens. Leigh created contrast also between the contemporary fabric wrapped chests, the

Italian handmade walnut antique reproductions and the wrapped natural split rattan lounge chairs in an organic shape. An original painting by our favorite artist and the antique rug, given a new life, tie together two disparate art forms. Our signature Hungarian goose down pillows form the infrastructure of the bed and provide the inspiration for the bedroom.
